Licht specificaties

	High	Middle	Low
 Lumens	750	med: 320	120
 Runtime	6h 30 min	med: 8h	15h
 Beam distance	140m	med: 85m	65m
 Water resistant	IPX4		

Kleuren

black/white (E36AHR 2B)

Power

2600 mAh Lithium-Ion rechargeable battery (included)

Gewicht

185gr

Certificering

AS/NZS 4268, CE, FCC, IC, ARIB

Overview

Description

Customized beam pattern, burn time and brightness, thanks to the MyPetzl Light for smart phone and tablet (free download at App Store and Google Play):

- access remaining burn time any time
- adjust brightness and burn time
- activate and create lighting profiles to suit the activity
- headlamp comes with multi-activity lighting profile
- four additional profiles available with the MyPetzl Light app: trail running, mountaineering, trekking, backpacking
- headlamp connects through Bluetooth® Smart (can be deactivated)
- the lamp can still be used without the app

Longer burn time, visual comfort and minimal handling thanks to its REACTIVE LIGHTING technology:

- the light sensor automatically adjusts brightness and beam pattern, optimizing battery use
- depending on the chosen burn time (6.5 h or 15 h), brightness automatically self-regulates in one of two modes: MAX POWER or MAX AUTONOMY

Lamp can be used with CONSTANT LIGHTING technology, which ensures constant lighting over time

Multi-beam lighting: combines a wide beam for proximity lighting with a focused beam for long-range vision

Ergonomic button, even with gloves

Red indicator light on the battery, in the rear, to signal location

LOCK function to avoid accidentally turning it on during transit or storage

Rechargeable 2600 mAh Lithium-Ion battery:

- universal charging with micro USB port
- charge indicator and blue signal for Bluetooth® Smart activation

Headlamp is very stable on the head:

- adjustable headband is very comfortable (Petzl patent)
- additional top strap for technical activities

Belt kit accessory for NAO + allows the rechargeable battery to be moved to the belt to reduce the weight worn on the head, or to keep it warm in winter

- Recharge time: 6h
